TENNIS DANCE IS WELL PATRONIZED

The dance given by the Carbon Tennis Club on Wednesday, October 24th, proved to be a brilliant success in every way. All present voted it to be one of the most enjoyable functions they had attended, and the committee in charge are to be congratulated on the result of their efforts.

The hall had been tastefully decorated for the occasion in a manner befitting a tennis club social, with racquets, tennis nets and various other articles pertaining to the sport, while from the center of the hall golden and white streamers were arranged to give a sunburst effect. The music supplied by Tom Shaw's famous Calgary Orchestra had a wonderful effect in enlivening the proceedings, while the good fellowship so inherent in all tennis votaries was everywhere in evidence, and ensured a most enjoyable time for all. The dance was also a success financially, over one hundred couples paying for admission, the takings being \$166.50, and leaving a balance of \$63.00 after all expenses were paid.

This will go toward making the new tennis courts which are so necessary if Carbon is to keep up the reputation for good tennis it has made during the past season.

Carbon Tennis Club wishes to thank those attending this dance for their loyal support and assure them that no efforts will be spared to make the next dance given by the club something to be remembered.

TENNIS CLUB BANQUET

The Carbon Tennis Club held their annual dinner at the Carbon Hotel on Friday, October 19th, 46 members and visitors being present. After dinner the president, W. A. Brashler, gave a short address relative to the history of the club and plans for the coming season.

The following toasts were then given:

Our King and Country—Proposed by J. M. MacDonald, responded to by C. C. Peters.

The Ladies—Proposed by V. B. Hawkins, responded to by Mrs. Malton.

Our Visitors—Proposed by Alex Davis, responded to by N. McCreary.

A musical programme arranged by members of the Tennis Club and Community singing led by Len Poxon with Miss K. Watkins and Mr. Fairbairn as pianists, brought the proceedings to a close.

WORK CONTINUES ON SOUTHERN HIGHWAYS

Recent contracts for road building awarded by the Department of Public Works include that to H. G. McDonald for the graveling on the Lethbridge-Macleod highway of 25 miles, and to the Western Construction Company for completing the grading of the Crow's Nest road to the British Columbia boundary. Work on the graveling will begin at once and a start will be made very shortly with the Crow's Nest contract, the intention being to continue the work through the winter.

AMERICAN FARMERS ARE INTERESTED IN ALBERTA

A great many farmers in the Western and Central United States are greatly interested in the opportunities for settlement in Alberta, according to D. A. McConnel, Provincial Publicity Commissioner, who returned recently from visiting a number of fairs in this territory. An exhibit depicting the agricultural and other natural products of Alberta was shown at eleven State and County fairs in Minnesota, Wisconsin, Iowa, Missouri and Kansas and wherever this was shown it attracted a great deal of interest. Canadian Government agents in this territory report that a great majority of the inquiries they are receiving from prospective emigrants to Canada are seeking information about Alberta.

FIVE YEAR SENTENCE FOR MANSLAUGHTER

Walter Scott, former attendant at Ponoka mental hospital, was found guilty of manslaughter and sentenced to five years in Prince Albert penitentiary by Justice Ford at Red Deer Wednesday. Scott was found guilty of causing the death of a patient, Dr. Arthur Habbs, former veterinary surgeon of Calgary, by violent treatment, which resulted in acute pneumonia.

ALEX REID HURT IN AUTO ACCIDENT

A very serious accident happened last Thursday morning, when Alex Reid, Secretary of the Village of Carbon, was returning in his new Graham-Paige car from Calgary. It appears that someone ran into Mr. Reid's car and forced him over the bank, the car going over a number of times before it came to a stop. Mr. Reid was pinned beneath the wreck some time before a passerby noticed the damaged vehicle and on investigation found the occupant beneath the car. Mr. Reid was immediately rushed to the Calgary hospital, where it was found that he was suffering from concussion of the brain, and his face and body were badly cut and bruised. Latest reports are that Mr. Reid is doing about as well as can be expected under the circumstances.

NEW AGRICULTURE TEXT DISTRIBUTED BY DEPT.

A new text book on Agriculture is being distributed by the school book branch of the Department of Education for use in the high schools of the province. It bears the title "Canadian Agriculture for High Schools" and is authorized as a text on the subject. The authors are a number of the members of the faculty of agriculture at the University of Alberta, and the book is particularly concerned with and adapted to the conditions of Alberta farm life and work. Alberta is the first province in the Dominion to have an advanced text of this description.

ALBERTA WHEAT YIELD AVERAGE IS REDUCED

On the basis of returns received by the Department of Agriculture from threshers in all sections of the province, it is estimated that the Alberta wheat crop for 1928 will average approximately twenty bushels per acre, although this figure is some seven bushels lower than the phenomenal returns in 1927. It is over two bushels above the ten year average for the wheat yield for the province. Further threshers' returns and reports of grain inspections indicate that the damage to the crop as a result of the frost is more serious than was anticipated when earlier estimates were made.

HOW HOOT GIBSON HAPPENED TO GET FAMOUS NICKNAME

Hoot Gibson, popular Universal star, whose latest picture, "Rhubarb Rhapsody," is the coming attraction at the Carbon Theatre, estimates that he has been asked the source of his curious nickname a matter of at least 8000 times.

So weary has he become of hearing the question that he has adopted a solution of telling everyone a different story. Here are a few.

"I used to say 'Hoot' when I was a child and my family began calling me that," is one of his replies.

"I have a large owl farm in Arizona," is one of his explanations.

"I'm a Scotchman and my friends call me that because I say 'Hot, Mon,' so many times."

"I was born in Hoot Falls, Florida."

"It's really an old family name, but no one will believe its my real title so I adopted the nickname of Edward."

As a matter of fact, Gibson has not the slightest idea where he got the nickname. He has been called Hoot ever since he can remember.

CARBON SENIOR WINS ELKS CUP

Has Average of 11.02 Points. With Attendance of 52

The cup presented to the Carbon School Fair Association for competition at the Annual School Fair has been won by the Carbon Senior School for the year 1928. We give below the list of the schools taking part in this competition with their respective standings:

Name	Attendance	Pts.	Average
Carbon Senior	52	573	11.02
Carbon High	39	309	10.90
Ganade	23	231	10.04
Avondale	25	279	7.97
Beveridge Lake	24	172	7.16
Carbon Junior	45	315	7.00
Carbon Intermediate	43	265	6.17
Berkley	22	111	5.18
Roseview	38	182	4.78

These figures were based on the total attendance of each school and were obtained direct from the Department of Education at Edmonton, so that no dispute would arise as to the correctness of the attendance stated, as one pupil would alter the average considerably one way or the other.

There were nine schools entered in competition for the Elks Cup, and next year with the view of competing for this cup, it is expected that the remaining schools of the Carbon district will enter exhibits at the Carbon School Fair.

HARVESTERS, SECURE WORK

With the object of encouraging the satisfactory assimilation of the numbers of British harvesters who will remain in Western Canada when the present threshing season is over, every effort is being made by colonization and farm settlements offices, and Provincial Labor Bureaus to have these men placed as farm help throughout the province for the coming winter.

Of the number who came from the Old land to assist in the harvest, some have returned to their homes—in many cases this course was dictated by their domestic circumstances. There is no doubt whatever, that many of these men will return to Canada with their wives and families as soon as conditions will permit them to do so. In addition, it is only to be expected that a certain number of these harvesters who have fitted into conditions which prevail in this country, will return to England.

There is, however, a great body of harvesters who are willing and anxious to remain in western Canada providing they can secure winter employment. If these men can tide themselves over the winter and during that period familiarize themselves further with farm work, they should be able to earn satisfactory wages in the spring and have no difficulty in securing farm work on a yearly basis at wages which will leave them in very much better circumstances than those under which they were working in England.

The main difficulty is to get in touch with the men who are prepared to remain in this country and to put them in touch with winter jobs before they lessen their chances of securing these jobs by leaving the districts in which they are at present working, and congregating in the larger cities such as Calgary, Edmonton and Winnipeg. There is no advantage from the harvesters' view point in coming to town as they only have to bear the expense of travelling back to the country points and their chances of securing work in the cities is very small. They stand a much better chance of securing work if they retain their present employment as long as it is available for them and in the meantime securing work for the winter with the farmers with whom they are thrown in daily contact. Putting this, they can receive the assistance of the officials of the Land Settlement branch who are located at central points throughout the province to whom almost any farmer can direct them, or from their local station agent or the local employment office which organization has 200 voluntary agents throughout the province of Alberta.

WORLD'S TEMPERANCE SUNDAY

Golden Text: "Love worketh no ill to his neighbor; love therefore is the fulfillment of the law."—Romans 13.10.

Lesson: Romans 13.1-14.

Devotional Reading: Psalm 15.

Explanations and Comments

Obedience To Civil Authority a Christian Duty, verses 1-7.—"Is it lawful to give tribute to Caesar, or not?" was the burning question which the Pharisees brought to Jesus, and you recall how He answered. "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." A great part of the Jews were always questioning the lawfulness of paying taxes and of recognizing the authority of the Roman Government. The Jews of Rome had been especially turbulent, and of this Paul must have heard many accounts from Priscilla and Aquila, who had been forced to leave Rome on account of the trouble. In writing to the Romans, therefore, Paul was naturally led to take up the question of the Christian's relation to the civil authority.

"Let every soul be in subjection to the higher powers—those in authority, the civil rulers, he counseled, and then by means of two clauses, one negative and the other positive, he asserted that the fact of the authority being established argues that it was ordained of God.

"The Roman Empire maintained law and order, protected life and property, and was on the whole, as Paul believed, a beneficent power. Nero, the reigning emperor, was, it is true, a dissolute young man who often arbitrarily did as he pleased with the lives of his subjects, but at the time Paul was writing, persecution of the Christians had come from other Jews or from popular riots, and not from the Roman Government. At Paphos (Acts 13), Thessalonica (Acts 17), Corinth (Acts 18), and at Ephesus (Acts 19), Paul had found the Roman officials a restraining power to his persecutors. Noteworthy is it, that after Paul had appealed to Rome and had been kept in confinement for some time without trial, he wrote to Timothy, 1. Tim. 2.1, 2: 'I exhort therefore, first of all, that supplications, prayers, intercessions, thanksgivings, be made for all men; for kings, and for all that are in high places, that we may lead a tranquil and quiet life in all godliness and gravity.'

"If our laws are not Christian, then it is our business to make them Christian; if those in authority do not represent Christian ideals, we are not to deny authority, but to secure legislators and governors whose ideals are Christian. We are more fortunate than those to whom the apostle wrote; we have some say about the laws which are to be enacted and the officials who execute them."—Gaius Glenn Atkins.

An Oil For All Men.—The sailor, the fishermen, the lumbermen, the outdoor laborer, and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

City Nephew (in art gallery): "That Aunt, is the 'Angelus' by Millet."

Rustic Aunt (on summer holiday): "What a shame! The man has actually copied the calendar that's hung in our kitchen for twenty years!"

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe-guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhaling of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

Marie: "If you could have two wishes, what would they be?"

Viola: "Well, I'd wish for a husband."

Maria: "That's one."

Viola: "And then I'd save the other till I saw how he turned out."

An Oil That Is Prized Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Monaco was an independent principality for 800 years until the reigning prince was dispossessed by the French Revolution.

ONE-DISH DINNER

In many families it is a problem to serve up a simple meal on one course. Here is a dish that will please a family of six, besides having the indispensable elements of nourishment:

- 2 cups cooked macaroni.
- 1 cup cooked carrots (diced).
- 2 tablespoons grated onion.
- 2 tablespoons chopped parsley.
- 2 tablespoons chopped fresh red pepper.
- 1 cup chopped ham.
- 6 tablespoons buttered crumbs.
- 1 cup Borden's St. Charles Milk.
- 1 cup water.
- 2 tablespoons butter.
- 2 tablespoons flour.
- 1 teaspoon salt.
- ½ teaspoon paprika.

Cook macaroni in boiling salted water 35 minutes. Make a white sauce of butter, flour, milk, water, salt, paprika. Place a layer of macaroni in a well-greased baking dish. Sprinkle with ham, carrots and seasonings. Repeat until all are used. Pour over all the white sauce. Cover top with bread crumbs and bake in a moderate oven for 40 minutes.

Man (just acquitted, to counsel): "Thanks very much, What on earth should I have done without you?"

Counsel: "About five years."

Giant Guns For Naval Base

Constructed As Experiment During War But Never Used

Three giant guns constructed experimentally during the War have arrived at Singapore from England, to form part of the naval base's defence. They are 18-inch weapons, nearly sixty feet long, which weigh 150 tons each and fire a 3,333 lb. projectile. These three guns were the only ones of their kind constructed. They were mounted on naval units for use in bombarding German positions, but the war ended before they could be effectively employed.

The shadow of a trouble is usually blacker than the trouble itself.

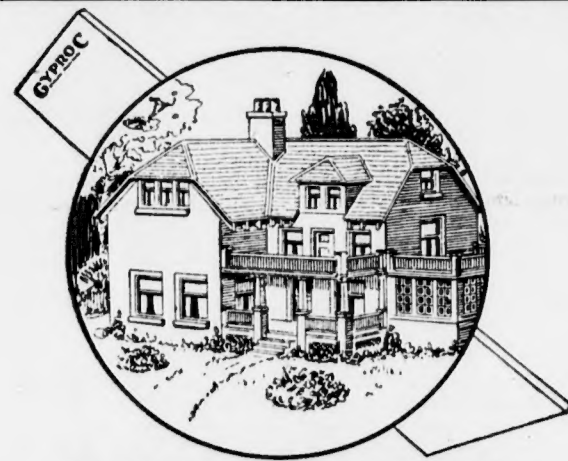

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

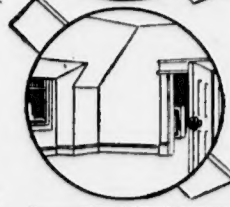

Scott's Emulsion

abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

FIREPROOF Farm Construction

GYPROC Fireproof Wallboard is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations—for remodelling—it is for partitioning off extra rooms—it is the most economical and satisfactory wallboard on the market.

Gyproc protects from cold, heat, fire, sound and vermin—yet costs less than materials which do none of these things. Quick and easy to apply. It can neither crack, warp, bulge or shrink. By filling the joints with Gyproc Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gyproc comes in broad, light, ceiling-high sheets of gypsum rock. Takes any decoration—and is especially suitable for Alabastine. Fuel saved by the insulating qualities of Gyproc will alone pay for the cost within a few seasons.

Clip and fill in coupon for interesting free booklet.

CHAPTER IV.—Continued.

"Pretty near got 'im that time, Donnie!" cried Andy gleefully. "If you an get 'im to lift 'is jaw off 'is shoulder, send in your right." Andy's hands were shaking with excitement, while Donald was cool and collected.

"Let me go after him, Andy," he begged; "I can whip him at his own game."

"No, no!" admonished Andy, "keep on as you are. Don't try to swap punches with 'im!"

Garrieau's seconds were working over him feverishly. Pursell leaned over the heavily-breathing champion, his evil face sick with apprehension.

"What'd I tell yer?" he exclaimed. "They've stuck a ringer in on us; dat feller ain't no amachoor! If he beats ya we're both bums! Foul him dis round, for de—" he finished with a savage oath.

At the beginning of the third round Garrieau charged his elusive adversary like a mad bull. Donald easily side-stepped him and he plunged into the ropes. As he rebounded, Donald landed a left and danced safely away without reprisal.

"You can do pretty footwork," snarled the champion with a look of Simian ferocity, "but I'll get you, you—" There followed a burst of wild cursing. He tried to rush Donald to the ropes, feinted for the wind, and let loose a powerful right for the jaw. Paying no attention to the feint, Donald ducked the blow and, countering, shot his left to his opponent's mid-section. The champion grunted aloud, fell into clinch, and hung on grimly. The referee pried them apart. Again the crowd came to their feet to shout in a frenzy of excitement.

Garrieau fell into a clinch, then wrestled about until he placed his opponent between himself and the referee. He loosed his right in a terrific upper-cut that missed, but his left smashed with fearful force to Donald's groin the most brutal foul that can be delivered. The referee did not see the blow.

Donald's nerves quivered with agony. A wave of torment and the awful nausea that follows such a

COULD NOT WORK FOR MONTHS

Restored to Health by
Lydia E. Pinkham's
Vegetable Compound

Port Elgin, N. B.—"For three months, I was nervous and weak with tired feelings and could not do my work. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I have got good results from it and recommend it to others."—LILA TAYLOR, Port Elgin, N. B.

This dependable medicine is sold by druggists everywhere.

W. N. U. 1757

blow swept through him. His face writhing with anguish, his gloved hand clutching his groin, he crashed forward on his face. His body twitched for a moment, then lay still.

The crowd came to their feet and many moved toward the exits. Another victim, they thought, to the champion's terrible punch. A number at the ringside, who had witnessed the foul blow, stood upon their seats and screamed denunciations at the referee.

The referee stood with one hand on Garrieau's massive chest. The latter was lustfully straining forward while the fatal seconds were tolled off.

The roar of the crowd came to Donald's ears like the dash of waves on a distant shore. At the count of five his body quivered. At the count of eight, his jaw sagging, his face distorted, he struggled to his knees. He saw Andy's agonised face as through a fog and heard his desperate cry of appeal.

"Up, Donnie! Up!"

At the count of nine Donald's benumbed muscles answered the call of his brain. With tremendous effort he staggered to his feet and wound his arms about his face. The crowd yelled themselves hoarse in tribute to his courage.

Garrieau was upon him with a growl like a wild beast. Donald stood in the centre of the ring reeling drunkenly. Garrieau shot a terrific right for Donald's wind that struck his weakly protecting elbows. The impact carried him to the ropes, and he fell forward to his knees. Again the referee's arm rose and fell as he counted the seconds. Again Donald tottered to his feet to meet a fusillade of short-arm jolts that pierced his guard and sent him staggering.

The gong rang. With body swaying unsteadily and legs wavering, Donald walked to his corner and sank down heavily. What a blessed relief to lie and relax! His head felt leaden and there was a ringing in his ears.

His seconds worked over him in furious haste. Andy knew all the tricks of resuscitation: the upward sweep of hand on the mid-riff that brings the big nerve centre to life; the quick raising of the chest that brings air to the remote corners of the lungs. With a sudden choking in his throat, the little Australian realized that this boy was very dear to him. A prayer on his lips, his hands trembling, but sure and deft, he strove to restore the shattered nerves.

The colour came slowly to Donald's cheeks and the haze cleared away as the cold water was showered upon him. He felt his strength returning. A long deep breath and he was himself again. He looked across the ring at Garrieau, whose vulture-like manager was leaning over him with an exultant look on his face. This brute had deliberately fouled him. A cold and terrible rage swept through every fibre of Donald's being. He had demeaned himself by entering the prize ring. This was bad enough; but to lose the battle!—Never! He looked for his friends. Their faces, he saw, were tense and full of misery.

"Andy, I'm going after him," he declared in a hard voice.

Andy was about to remonstrate, but he caught a flash of the hard light in Donald's eyes, and the words died on his lips. He hesitated. Maybe he should have let Donald take the aggressive from the start.

"Are you strong enough, Donnie?"

Donald's eyes held a dull glow.

"Yes!" he gritted.

Andy patted his arm as the gong rang. "Give 'im 'ell, Donnie!" And then added reverently: "May God give 'im strength."

Donald shot from his corner as though thrown from a catapult to meet Garrieau before he was fairly out of his chair. The spectators held their breath. Was this the man who a minute before had walked staggering and beaten to his chair? When the referee pried the fighters apart after a fierce mix-up in the champion's corner, a puffed eye and a bloody face showed that Garrieau had absorbed severe punishment. Donald was everywhere, dancing in for a fierce rally and out again, always without a return.

The arena fairly rocked to the cheers of the crowd as Donald stood in the centre of the ring and exchanged punches with the champion. Head to head they stood while Donald's arms worked with such lightning speed that the champion's blows

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zesty flavor and rich quality. Put up only in bright, clean aluminum packages.

were smothered. And, marvel or marvels, the champion was giving ground. The pursued had become pursuer. The tide had turned. With his arms wound about his face the champion retreated. As he essayed a lead, Donald's fist smote his face before he could again cover up. Following relentlessly, Donald penetrated his opponent's guard with rights and lefts until the champion's face was a smear of red.

A bedlam of sound came from the audience as they stood on their seats and roared their admiration for the challenger's wonderful exhibition. Andy, his face set, his eyes bulging clung to the corner of the ring.

Garrieau drove heavily at his elusive foe and missed. The impetus swung him to one side. For an instant his chin was without the protecting shelter of his shoulder. With a bewilderingly swift move Donald stepped forward, pivoted on his toes, and with the full weight of his powerful young body behind it, he whipped his right to the champion's unprotected jaw. Plop! Garrieau fell upon his face and sprawled like a baboon on the floor. Donald walked to his corner, thrust his gloved hands towards Andy, who stood as though paralyzed, and said: "Take them off, Andy." His voice was audible throughout the arena. The referee rushed to Donald's side and raised his arm aloft in token of victory.

With a roar the crowd came to its senses to realize that the fight was over. Pandemonium broke loose. A struggling mass of humanity surged into the ring. Every man wanted to shake hands with the new champion. Garrieau, the possessor of the "punch" they had so much admired, was forgotten. The king is dead—long live the king! Such is life, especially in the boxing game!

CHAPTER V.

With much difficulty Donald and his friends forced their way through the cheering throng to the dressing-room. Weak and tired, Donald lay on a cot, while his handlers gently massaged his sore body. Andy moved to the cot and stood looking down on his protege.

Donald opened his eyes. "Hello, Andy," he smiled weakly.

"Hello, Donald," said Andy huskily, as he patted Donald's dark head.

Donald's hand stole out to meet the warm clasp of his friend.

"Some little fight," said Andy, summoning a smile.

"Not bad," agreed Donald.

Gillis pulled his hat brim down over his eyes to hide his emotion. "I've a good mind to go out and give that brute another licking," he growled.

One of the promoters thrust his

SUMMER COMPLAINT Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

head through the door. "Come and get your dough!" he shouted.

"Strike me lucky!" returned Andy, "those words 'ave a pleasant sound. He picked up a small handbag and left the room. In a few moments he returned, his face beaming. He tapped the satchel. "Chuck full," he said happily.

At the gymnasium they gathered in Andy's room, and for the first time Donald told them of the attempted "frame-up" proposed by Garrieau's manager. Douglas strode across the room and gripped Donald's hand. Not a word was uttered by anyone, but the silence was more eloquent than speech.

They were all in a happy mood after the prolonged strain of the day. Andy was in particularly high spirits. "Gentlemen," he began grandiloquently, "I 'ave before me on the tible 'ere a most wonderful little 'andbag. All it 'ad in it this morning was a dirty collar and a shirt stud. Now," making a dramatic gesture, "it's the bloomin' 'orn of plenty!" He turned the satchel upside down and a mass of bills, coins and cheques fell upon the table.

"Ere, Gillis," cried Andy, as he selected a bill, "will you go out and get some champagne, and when you goes in the bar buy a drink for the 'ouse. Bring ginger ale for Donnie; 'is manager'll drink 'is share of the wine."

Andy sorted the money into piles and sat quietly counting for a few minutes. "Fifteen thousand and a few odd dollars," he announced.

"What!" ejaculated Donald. He was astounded. He had given the size of the purse little thought. "I had no idea it would be so much," he said in a surprised tone.

"Oh, the boxin' gyme is a great gyme," said Andy.

"Yes," remarked Douglas, "but after seeing that bout today I'm going to take up tiddlywinks instead; it's not so rough."

When the big man returned with the wine Donald turned to Douglas. "It seems that you and Gillis are old friends."

"Why, yes, Jack's been one of Dad's right-hand men for—how long, Jack?"

"About ten years," replied Gillis.

"And I'm equally interested to know how you and Jack know each other so well," said Douglas curiously.

"I met Donald on the train comin' out," answered Gillis quickly.

"Come on, boys," cried Andy, "we'll drink to the new champ—to Donnie's health." Andy held his glass aloft.

"Boys, I can't make much of a speech, as I 'ave only 'ad one drink. Stand up while we drink to our Donnie. I knows that 'e's goin' to leave me, and that 'e's goin' to give up the boxin' gyme. I knows that 'e isn't in the 'abit of mixin' with the likes o' me. I knows that I'm lucky to be blackin' the boots o' a man like 'im. But when I knows that 'e went into this fight to 'elp a poor little bloke like me out of an 'ole, I'm proud, boys, I'm proud! I've seen many a fight, and I've seen many a gyme man. But strike me blind if Donnie didn't this day teach me something about sheer grit. When 'e came stumblin' to me at the end of that—that third round—I—" He stopped.

"You know what 'appened," he continued in a husky voice. "I ask nothin' better'n to 'ave 'im for me pal. 'Ere's to the gymeest man that ever stepped in shoe-leather! 'Ere's to 'im!" Andy turned away quickly to light a cigarette. His eyes were moist. The room was silent.

Donald was deeply moved by his little friend's show of feeling. Douglas broke the silence. "You got back to the Coast just in time, Jack."

"How's that?"

"Dad has started on the biggest job that he's tackled yet."

"What is it?"

"Do you remember the big tract of timber that he bought in the Cheakamus Valley?"

"Yes, he bought on my advice," answered Gillis.

"Well, he's going to run a railroad in and build sawmills, and saw the logs right on the spot instead of shipping them to the Coast."

"Good!" said Gillis heartily.

"There's a wonderful stand of timber in that valley."

"But here's the best part of it," Douglas went on eagerly: "Dad's going to send you in to cruise the timber around Summit Lake, and I'm to go with you. It's a wonderful coun-

try. I was up there last summer."

He turned to Donald. "Will you go with us?"

"I'll be glad to," assented Donald.

"Good!" cried Douglas. "It will be fine camping with you and Jack."

Little Andy sat patiently listening to this lively conversation, in which he had been completely ignored. He could contain himself no longer.

"I s'y," he blurted, "am I such a blinkin' dwarf that you've forgotten that I'm in this 'ere crowd? Isn't me 'ead above the tible? Where the 'ell do I get off on this 'ere bloomin' picnic, I asks you?"

One look into the Australian's seriously comic face with its heavy blond eyebrows wagging up and down set Douglas into paroxysms of laughter. "Andy," he declared, "I'm going to take you along, even if we have to mark you 'excess baggage.' Can you cook?"

(To Be Continued.)

Many Factories In Japan

There are 44,000 factories in Japan, and the number of men and women working in organized industry has grown from 25,000 to 1,611,000 in 30 years.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

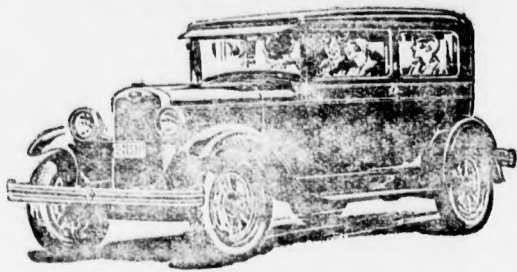

Fletcher's
CASTORIA

MOVING THE FORDSON
PLANT TO IRELAND

The Ford Motor Company plans to move its main Fordson tractor plant to Cork, Ireland. Machinery now is being moved from the present Fordson plant near Detroit and shipped to the company's plant at Cork to be reas-

sembled and put into operation by January 1. Manufacture of the tractor at Fordson was discontinued about a year ago and reason given for the change was that European demands for tractors had so materially increased that the Cork plant was unable to fill them. These orders, officials explained, came principally from England, Ireland, Germany and Russia.

The Greatest Popularity Contest

THE public has judged motor-car values. It has staged the greatest of popularity contests.

Never has Chevrolet enjoyed such whole-hearted public acceptance—never before has any low-priced car offered such a striking combination of great beauty, thrilling performance and amazing economy!

To sit behind the wheel is sheer delight.

Come in and see the world's most popular car. Experience for yourself the wonder of its performance. Learn for yourself why it is the greatest success of the year.

Snicklefritz -----

The trouble with some flappers is that they have a face like a rose but a figure like a cabbage.

L'il Gee Gee says that flappers and golfers seem to have the same ambition—to go around in as little as possible.

Dora is always having trouble at bargain sales. She gets clocks that won't run and stockings that do.

Some men go to church because it is the only place that they can get rid of their lead nickles.

In the old days a wife kissed her husband when he got home—it meant affection.

Now—it may mean investigation.

Wife (with newspaper): It says here that men grow bald because of the intense activity of their brains.

Hubby: Exactly. And women have no whiskers because of the intense activity of their chins.

L'il Gee Gee says dieting is nothing new. She says that in the middle ages they even made the Tower of Pisa lean.

A man must marry before he can possibly realize how many faults he has.

The very least most wives can manage with the most they can get.

The difference between a flapper and a race horse is very pronounced nowadays, says Frank Cutchie, "but either my win by a neck.

A young bride had the habit of speaking of her husband as peaches and cream cake, so many layers high, according to how much she appreciated him at the time.

One morning her mother said to her, "Well, how is bill this morning? Peaches and cream cake three layers high?"

"No."

"Four?"

"No."

"Five?"

"No."

"Well, what is it?" asked the mother.

"Dog biscuit," snapped the bride.

Dentist (extracting nail from the tire of this car) "Quiet, now. You won't feel this."

"I can't marry him, mother. He's an atheist and doesn't believe there's a hell."

"Marry him, my dear, and between us we'll convince him that he's wrong.

Most of the family were at the parlor window watching the king and queen ride by. Suddenly the mother turned to her daughter, "Where's your auntie?"

"Upstairs," came the reply, waving her hair.

"Mercy," exclaimed the mother, "can't we afford a flag?"

Motorist (whose car refuses to budge an inch): "Anyway, Gene Giroux, who sold it to me, told the truth about it."

A Contribution To Canada

Out of the welter of charge and denial and appeals to racial and religious prejudice which characterized the recent Arm River by-election in Saskatchewan, one newspaper despatch from a special correspondent vividly impressed the writer of this column.

In the course of his journeyings around the constituency reporting the many meetings held, the staff correspondent of the paper in question had occasion to stop at the hotel in one of the smaller villages. The hotel was not of the usual type found in prairie villages. The rotunda he describes as "a bower of floral beauty," a close approach to a greenhouse. The ceiling was beautifully beamed and paneled, the proprietor having laid out five different plans for it before he felt satisfied. The hotel was scrupulously clean, the meals well cooked and nicely served by attractive help.

The correspondent was curious and he entered into conversation with the proprietor, one Kasper Haberlach by name. The secret of the beautiful woodwork was seen discovered in the fact that, in his youth, the proprietor had been a cabinetmaker, and had a love for fine woods and the beauty of fine lines. His love for the beautiful also found expression in his flowers. Relating his story, Kasper Haberlach told how he came to Canada sixteen years ago, in his early manhood. Today he is the father of seven daughters and two sons, most of whom were born in Canada.

Proud as Kasper Haberlach is of his attractive hotel, it is his family in which he rejoices. Particularly is he proud of their school attainments. One of the Misses Haberlach led her school for three years in succession. The youngest girl, now aged seven, was sought by Chatauqua promoters a couple of years ago because of her talents as an entertainer. Kasper Haberlach, himself, speaks six languages fluently, but, says the correspondent, "I think he is probably most proud of the fact that his children all speak English indistinguishable from any other Canadian children."

Mr. Haberlach has a praiseworthy method of inculcating thrift in his family. His daughters help in the hotel. "I have always made it a rule," he said, "to pay my children wages daily for their help in the business, just as I would strangers. They are encouraged to save for education or business or whatever they desire."

Now what we find so encouraging in this whole story is that it seems to provide an answer to many good people who are greatly concerned over the subject of immigration. Here is a man from a foreign country, whose mother tongue is not English, but who, coming to Canada, brings with him an inborn sense of beauty, skilled craftsmanship, habits of thrift, high ideals of home life and citizenship, and a keen realization of the value of education, a man anxious that his children shall have the best that life can offer and determined that, to the full extent of his ability, they shall enjoy those privileges.

In this story from real life today, we also find a satisfactory answer for those who are inclined to question the efficiency of our schools and educational system, and their ability to perform the task of largely assimilating new comers from other lands into our common Canadian family.

The fact cannot but be realized and accepted that Kasper Haberlach brought with him to Canada something of far greater value to this country than money, and that the contribution he is making to the upbuilding of this Dominion is something more than, and far beyond, the mere making of money through the management of a well regulated hostelry for the comfort and convenience of the travelling public.

In the evolution and development of the Canadian people we require all the beauty, all the craftsmanship, all the talent, all the thrift, and the full recognition of the real things of life, that all the peoples of all the world can contribute. Canada does not desire to be a mere copy of any other nation or people, even though that nation and people be the best in the world today. Our ambition is loftier than that; as a Dominion our ambition is to rise still higher, and to develop on this northern half of the American continent a type of citizen superior to all that have preceded us—a citizenship that shall be God-fearing, healthy, industrious and happy, revelling in all that is beautiful in art, music, literature and nature, and finding a real joy and contentment in seeing our work well done.

And to all who have a contribution to make in working out this pattern of a strong and ideal Canadian citizenship, this Dominion should extend a wholehearted welcome.

Paul—"The doctor has prescribed rest and change for me."

Paula—"Well, why are you so gloomy about it?"

Paul—"He advised me where to get the rest, but he didn't tell me where to get the change."

He—"I've come to a conclusion. She—What is it?"

"I realized today that I have been a bachelor for 38 years, and—"

"Oh, Jack, this is—"

"And I decided I'd had a jolly good time and that I'd keep it on."

Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Manitoba Sanatorium

Sale Of Christmas Seals To Be Held This Year To Help Along the Good Work

The Manitoba Sanatorium at Ninette, Man., is launching again this year its sale of Christmas Seals. The Christmas seal fund last year made possible the purchase of a portable X-ray outfit, and, up to September 1st, financed the general expenses of twelve "missionary journeys" for the examination of people who had been in contact with tuberculosis, or who were suspected, or had symptoms. Three thousand people were examined, all known to be "contacts" or "suspects," a work very much worth while.

The 1928 seal money will be used to continue and extend this work and may also help with a very special work—to provide sanatorium care for children. The Province of Manitoba has not one bed especially provided for a tuberculosis child. There are children definitely ill, and children under par and infected who will soon be ill. To care for these sick children, to build up the almost-sick children into health and prevent their lapse into disease, is one of the best of all good works. Seals may help to do this. Prevention is better than cure, cheaper and more joyful in every way.

Christmas Seals are sold in sheets of 100 for \$1.00; a seal for a cent. You can assist greatly in a most worthy cause by purchasing a sheet of these seals, and use them on all letters sent out during the Yuletide season. Those willing to help may obtain these seals by writing to the Manitoba Sanatorium, at Ninette, Man. Dr. David A. Stewart is the medical superintendent.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is what to give him to set him right quickly.

It is to meet such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Irish Priest (addressing damaged invalid): "I'm going to pray that you may forgive Casey for having thrown that brick at you."

O'Leary: "Mebbe yer Riv'rence 'ud be saving toime if ye'd just wait till Oi get well, and thin pray for Casey."

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Unobservant Customer: I suppose you guarantee there's no chickens in these eggs?

Dealer: I certainly do, sir—they were laid by a duck.

Break Colds with Minard's Liniment.

"So your wife has left you?"

"Yes, about four days ago."

"What did she say when she went?"

"Is my hat on straight?"

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

She: "I bobbed my hair to show my independence."

He: "What did you bob your skirt for?"

Minard's Liniment Invaluable Everywhere.

W. N. U. 1757

ASPIRIN

You doubtless depend on Aspirin to make short work of headaches, but remember that it's just as dependable an antidote for many other pains! Neuralgia? Many have found real relief in an Aspirin tablet. Or for toothache; an effective way to relieve it, and the one thing doctors are willing you should give a child—of any age. Whether to break up a cold, or relieve the serious pain from neuritis or deep-seated rheumatism, there's nothing quite like Aspirin. Just make certain it's genuine; it must have Bayer on the box and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Crossed English Channel in Balloon

Blanchard, with Dr. T. E. James as passenger, was the first to cross the English Channel by balloon, and Colonel Fred Burnaby, a century later (1882), the second.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

A Wonderful Chance

Minister: I wish to announce that on Wednesday evening the Ladies' Aid will have a rummage sale. This is a chance for all the ladies of the congregation to get rid of anything that is not worth keeping, but is too good to be thrown away. Don't forget to bring your husbands.

"Daddy, what is dew?" asked Bobby.

"The rent, the note at the bank and the instalment on my car," growled his dad.

Taking No Chances

The small office boy ran into the manager's office wild with excitement. "Oh, sir," he cried, "a man's fallen through the coal hole."

"All right," replied the boss, "just put the lid on him while I get a policeman. We'll charge him with stealing our coal in case he sues us for damages."

A Preventative

For preventing stiffness and further pain from sprains and hurts of any kind use Minard's.

Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Appleford Paper Products

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

WOULD SHIP MARITIME COAL BY BAY ROUTE

Winnipeg, Man.—Maritime provinces were considering the possibility that Maritime coal could be shipped to western Canadian points through Churchill on the completion of the Hudson's Bay Railway, Hance J. Logan, K.C., of Amherst, N.S., newly appointed director of the Canadian National Railways, stated here.

Mr. Logan said that serious opposition to the Hudson's Bay Railway project had never developed in the Maritimes and there was a feeling which he shared that whatever might be the success of the route for grain shipments the development in mining and colonization which it would encourage, would justify its construction. It had been one of the fortunate aspects of railway construction in Canada that some development had always taken place to justify the work.

Those interested in shipping Maritime coal to Churchill believed that many grain boats would be going back to the Bay which could stop at Sydney, Cape Breton and take on loads of coal.

Mr. Logan said Canadian National officials would confer with the Canadian Pacific Railway with respect to the Peace River Railways as soon as Sir Henry Thornton returned from England. He was convinced, he said, that the Peace River District formed a very important part of Canada and he hoped the negotiations would be successful. He had been asked about the likelihood of the C.N.R. joining the C.P.R. in the ownership of the Alberta Northern Lines. Sir Henry was expected back during the next two weeks.

New Elevator Opened

Members Of Prairie Wheat Pools Attend Ceremony At Port Arthur

Port Arthur, Ont.—Pool terminal elevator number seven, the world's largest single unit elevator, with a capacity of 7,200,000 bushels of grain, was officially opened in the presence of forty members and directors of the Saskatchewan, Alberta, and Manitoba wheat pools.

A. J. McPhail, president of the Saskatchewan Co-operative Wheat Producers, Ltd., officiated at the opening and with him were C. H. Burnell, president Manitoba Pool and L. D. Newbitt, representing the Alberta Pool. The elevator is owned and operated by the Saskatchewan Pool Elevators Ltd., with headquarters at Regina. The building is 1,100 feet long, has 225 storage tanks, and 558 inter-space and outer space bins.

The tanks are 125 feet high and the work house is 210. The work was done in the record time of 149 days from the time the first concrete was poured.

World's Record Cow

Saskatchewan Cow Holds World's Championship As Butter Fat Producer

Moose Jaw.—According to official figures received here a Saskatchewan cow now holds the world's championship as a butterfat producer.

She is Canary Korndyke Alcartra, and is owned by Ben H. Thomson, Boharm, who is famed throughout western Canada for his livestock records. During the official test period of 305 days the cow produced 1,080 pounds of butter fat, which is 106 pounds higher than any previous records.

Also during the official test period the champion cow produced 26,396 pounds of milk, which gave an average butter fat test of 4.04. The cows was milked three times a day, and was fed on feed grown on Braeburn Farm, Boharm.

Postpones Pacific Flight

Tokio.—Baron Gunther Von Huenfeld, who recently completed a flight here from Germany, said he considered the season too late to attempt a flight across the Pacific. He was undecided how he would return to Germany.

W. N. U. 1757

Overcomes Gravity Force

Strange Claim Made In England By Young Scientist

London, Eng.—R. H. Tate, young scientist, claims to have overcome the laws of gravity, according to despatches recently from West Hartlepool to the Daily Express.

The experiment was demonstrated in a secret laboratory test, when a piece of metal—absolutely unattached to anything—was suspended in mid-air, the despatches said.

Tate placed on the floor the metal which was said to resemble aluminum but was of a composition heretofore unknown, and placed a similar piece of metal above it in the air. The top metal remained suspended—not for just a moment, but for as long as Tate left it there.

"I have eliminated the force of gravity," Tate said. "The metal is not insulated and it is thought that the practical possibilities of the discovery are apparent. I have discovered the new force from known forces, by eliminating gravity from the metal. The composition of the metal is known only to myself, but among its possibilities is the controlling of aircraft from the ground."

Experts said that, if true, the discovery would be the greatest in centuries.

Straits Clear Of Ice

No Ice Yet Reported To Be Seen On Hudson Straits

Ottawa, Ont.—No ice is reported in Hudson Straits, according to the latest radio message from the wireless stations there. A few icebergs and growlers have been seen, while there is a film of ice on the lake shore, but in the seaway proper, the ice has not yet appeared. The Canadian government seamer, Montcalm, with the party in charge of Major N. B. McLean, of Ottawa, is at present lying off Button Islands, at the extreme tip of Labrador. Major McLean will remain there until all navigation in the straits has been closed.

The string of wireless stations along the straits and on to Churchill, are in close touch with each other, and with the Federal Department of Marine and Fisheries in Ottawa. Wireless developments have been added to by the establishment of a private station, at Mistake Island, 150 miles north of Fort Churchill, by the North American Mining Exploration Company, and another station has appeared at Baker Lake, in from Chesterfield Inlet.

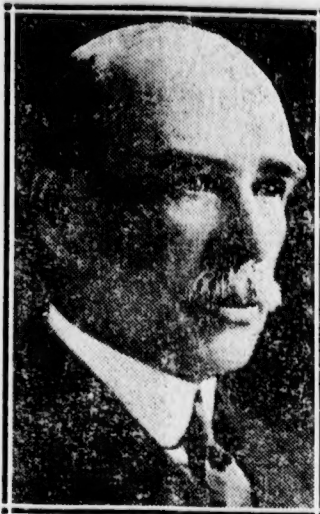

Four Killed In Plane Crash

Tucson, Ariz.—Four youths are dead here following a crash when a Ryan Brougham monoplane plunged against the side of a mountain while in full flight. The crash occurred when the plane, soaring over the Catalina mountains in search of Bill Hyatt, 18, reported there, hit an air pocket. The ship caught fire after crashing and was demolished. Its occupants were burned to death.

May Have New Trial

Toronto, Ont.—Hon. W. H. Price, attorney-general for Ontario, announced that the Crown would bend every effort to facilitate any action undertaken by Wm. Haskins, of London, who was recently sentenced to prison for five years on a charge of manslaughter, towards securing a new trial, or securing his release on bail pending a revision of his case.

COLONIZATION PROBLEMS

COL. J. S. DENNIS, C.M.G.

Chief Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who, for over fifty years, has been active in Canadian land settlement. An outstanding authority on Canadian immigration and colonization problems, he has recently concluded important plans with the British Government for the movement of British settlers to Canada.

Planning New Air Routes

Russia Wishes To Supplement Inadequate Railroad Service

Moscow.—More than 5,000 miles of new air lines will be opened in Soviet Russia next spring by the Soviet Air Transportation Company—"Dobrolet." The planning work is under way. The lines in every case are being laid out to supplement inadequate railroad service in the east and southeast.

Siberia, for the first time, will be connected with the European network of passenger and mail air routes, which now extend to Moscow. A daily service, 2,000 miles eastward to Irkutsk, near the Mongolian border, will be started in May in co-operation with the German Luft Hansa. With night flying, the distance will be covered in from 26 to 30 hours. It now takes five days by train.

Another air line will connect Alma Ata (where Leon Trotsky is in exile) with Novosibirsk over the route of the uncompleted Turkestan-Siberian railway. Several new lines are planned in the Volga Valley. German Junkers planes will be used upon all the lines.

Federal Assistance Needed

Premier Tolmie Of B.C. Thinks Government Should Aid In Building Roads

Vancouver, B.C.—The Federal government should again initiate the policy in effect between 1919 and 1925 whereby the provinces could earn grants of assistance in building trunk roads, Premier S. F. Tolmie, said in the course of an address to the Vancouver Board of Trade.

The Premier said it was time the Federal government recognized the trend of modern times and give assistance to the provinces in the matter of roads. The Dominion government, he remarked, through the post-office and other departments was one of the biggest users of roads.

Holding Swine Club Tests

Winning Teams Will Go To Royal Winter Fair

Winnipeg, Man.—Preliminary arrangements have been completed by the Canadian National Railways for the interprovincial boys' and girls' swine club competition, which will be held on November 21, at the Royal Winter Fair, Toronto. Six provinces will be represented this year and the results of the provincial competitions will decide the teams which are to go to Toronto.

Teams from each province will be the guests of the National system during the week of the Royal Fair, and the entertainment of the boys and girls will include a trip to Niagara Falls and a visit to the Donalda Farms, just outside of Toronto.

In the past two years teams from Roland, Manitoba, have won and successfully defended the W. D. Robb Trophy, which is emblematic of interprovincial championship. The cup is held by the winning team for one year. Gold medals are presented to the winning team from each province.

Wheat Pool Makes Denial

Are Not Holding Up Wheat Shipments In Order To Raise Prices

Winnipeg, Man.—E. B. Ramsay, secretary of the Manitoba Wheat Pool, has denied charges that the Canadian Wheat Pool is holding up shipments of wheat, and thus increasing the cost of flour and bread in England.

"Nobody in Canada is satisfied with the present level of wheat," declared Mr. Ramsay. However, we are not retarding shipments, but on the other hand, are not free sellers on the present price levels," he added.

From the point of view of the Canadian farmer, Mr. Ramsay continued, the prices are considered too low at present and "we find that the non-pool members are also of the same opinion." The non-pool members, he added, are storing their grain, awaiting acceptable prices.

Clean Law Administration

British Columbia Will Not Resort To Use Of "Stool Pigeons"

Victoria, B.C.—"Stool pigeons" must not be employed by British Columbia provincial police under a policy announced by Hon. F. H. Pooley, attorney-general.

"The police of this province are going to operate on a clean, above-board basis and the use of stool pigeons will never form a part of their methods," Mr. Pooley said, adding, "The police will never use agents to persuade persons to break the law in order to get convictions. Practices of that kind cannot be tolerated."

Earning Living In Circus

Paris.—The newspaper Paris Midi said that Alexander Subkoff, youthful husband of Princess Victoria Schaumburg-Lippe and a brother-in-law of the former Kaiser, was under contract to play in a cavalry act in the Paris late in the winter.

Chinese Found Guilty

Carlisle, Eng.—Chung Yi Miao, young Chinese law student from New York, was found guilty of the murder of his bride, Wai Sheung Miao, here and was sentenced to death.

JOURNALISM OF TODAY IS OF A HIGH STANDARD

New York.—Frank B. Noyes, of the Washington Star, president of the Associated Press, told a group of representative industrialists here that newspapers as a whole were "worthy of the confidence of their readers."

Speaking at the fifth annual conference of major industries held at Columbia University, Mr. Noyes said he thought everyone familiar with journalism in the last fifty years would agree "that in accuracy of statement, in breadth of information, in ethical standards, there had been a steady progress upward."

Mr. Noyes, appearing as the representative of the publishing industry, said that the reports of newspapers and press associations did contain "many inaccuracies" since they were the products of human beings, but he gave assurance that "the intention is to fairly and accurately depict the situation described."

He defended modern journalism against forms of attack and criticism, which he said were unjust and unwarranted.

"As it is I am serenely conscious of the fact that we are doing our level best day in and day out, to keep in the middle of the road, having no partiality for any party and church, any economic theory or any cause or man whatever, and on the other hand no hostility to any of them."

"I know that this is true of the Associated Press, and I believe it is also true of the other large press associations."

"There have been venal newspaper men as there have been venal doctors, lawyers, business men and even venal politicians, but God be thanked that the newspaper crooks are few and far between."

Will Dredge For Gold

Syndicate Will Operate On River Near Medicine Hat

Medicine Hat, Alta.—A syndicate composed of local men, assisted by Vancouver and United States capital, has leased ninety miles of river front below this city and is conducting tests preparatory to dredging the gravel for gold. Some thirty years ago there was considerable activity of this nature along the river, the old hand panning process being followed with returns averaging four dollars a day for experts. George L. Holms, San Francisco engineer, is in charge of the tests.

Sir Arthur Currie In France

Montreal, Que.—Sir Arthur Currie will not resume his duties as principal of McGill University for about two months, according to a cable received at the office of acting principal, Dr. Charles Martin, Dean of the medical faculty. It is now expected Sir Arthur will return shortly before or during Christmas season. He has fully recovered his health and at present times is continuing his vacation in the south of France.

Want To Find Owners

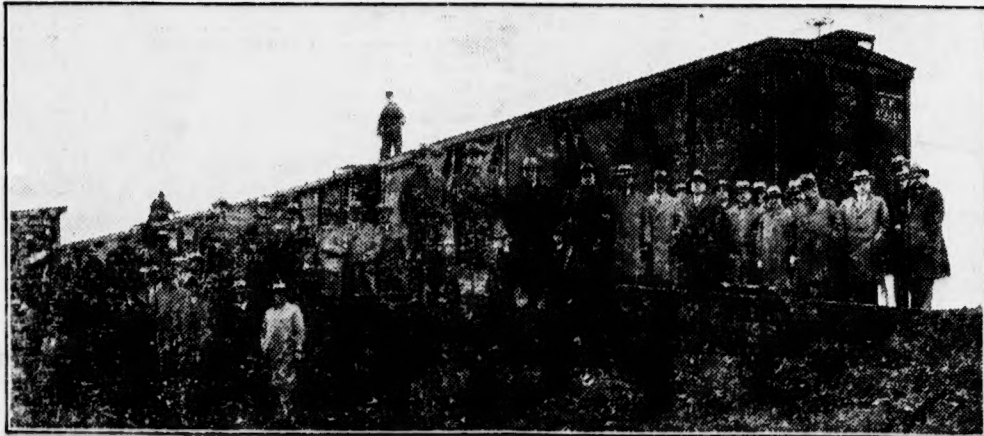

Philadelphia.—The United States government has joined forces with District Attorney Monaghan, who is directing the grand jury investigation of rum runners and police corruption, in his efforts to identify the mysterious owners of 16 bank accounts, totalling nearly \$12,000,000. Monaghan believes the money was deposited by bootleggers, and the federal government wants to determine whether income taxes were paid on funds.

U.S. Residents Here Can Vote

Toronto, Ont.—United States citizens resident in Canada have the right to exercise their franchise in the approaching presidential election, it was stated at the Toronto consulate here. They will be permitted to vote at the various United States consulates throughout the Dominion.

Ottawa.—An official inquiry into the wreck of the Western Canada Airways plane, which took fire following a crash near Calgary, will be instituted by officers of the High River air station, it was announced by the Department of National Defence.

INTERESTED IN HANDLING OF GRAIN CROPS

F. R. Newman, Vice-President Soo Line, together with 50 representatives of the Soo Line, Spokane International, and South Shore Railways watching carloads of grain passing through the vast Canadian Pacific Railway yards at North Transcona, Winnipeg. They saw trainload after trainload of Canada's greatest crop being handled over the "hump."

is a necessary article when hauling wheat to the elevators. Old harness will not stand the severe strain, and breakages cause delays which mean loss of time and money. You will be ahead by buying new harness from me, as in spite of the recent rise in the price of leather I can sell you best quality harness at last spring's prices until the end of the month.

W. A. BRAISHER**The Greatest Radio Value Ever Offered**

Westinghouse

Westinghouse

**6 Tube CONSOLE**
for Only \$167.00 Uses UX-201-B Radiotrons

When you buy a Westinghouse Battery Console Radio you own a beautiful instrument that embodies the latest improvements at a price that represents more radio value than has ever been offered before.

It gives you:

Full 6-tube power, using the new Westinghouse UX-201-B and UX-121-B Westinghouse Radiotrons.

Selectivity, finely balanced, giving equal performance in the upper and lower wave bands.

True-to-life tone quality—both high and low notes reproduced with equal fidelity.

Economy of operation. The new UX-201-B Radiotron uses only half as

much filament current as the former standard UX-201-A, thereby reducing the cost and frequency of "A" battery recharging.

Distant stations brought in with ease and clarity.

New improved cone speaker, developed by Westinghouse, and many other features which we will be glad to show.

Single dial control.
